

# CyberWebPAGE

# CyberWebPAGE

Is Build With The Most Popular WordPress Theme In The World  
And The Ultimate WordPress Page Builder

# Divi Builder

A drag and drop WordPress page builder that allows you to construct your page from top to bottom by combining and using various elements.

The divi builder has 3 Main structural elements and they are used to build all your pages.

- ONE : Sections.
- TWO : Rows.
- THREE : Modules.

## ■ SECTIONS

Are your largest organisational element and are used to house the rows and columns.

## ■ ROWS

Inside of each row and columns you can add modules, and are used to organise your contents.

## ■ MODULES

Are your content elements, like text, images, sliders and galleries.

- Sections organised your rows/columns.
- Rows/Columns organises your Modules.
- Modules organises your content elements.

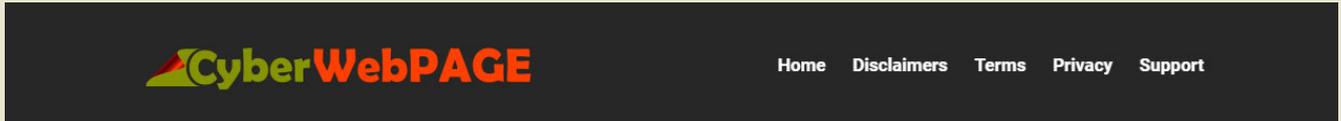

Divi Takes WordPress To A Whole New Level With Its Incredibly Advanced Visual Builder Technology.

Please visit : <https://www.cyberwebpage.com/divi> for Divi Theme Documentation and Tutorials.

A typical Home Page or Landing page would have 3 main elements :

## ■ HEADER SECTION

A website header is one of the most valuable areas of your website. It runs across the top of the page and appears on every page of your website, It's used for branding purpose with a Logo and Menu for easy site navigation.

## ■ MAIN BODY SECTION

Contents pertaining to your niche, see Thank You page example below :

### THANK YOU

My mission is simple : to help SMEs to RANK#1 by CyberWebPAGE!

Have a minute? Help us share the love! Follow us on [Twitter](#) and like us on [Facebook](#)

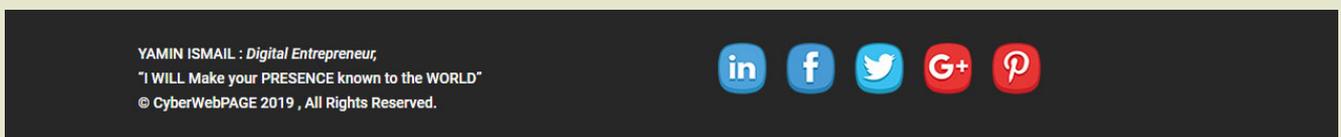

**Your CyberWebPAGE will consists of 5 sections:**

1. **Header** : Consists of your logo or any branding banner.
2. **About** : A brief summary of what you or your company is about.
3. **Services** : You may mention your core services here.
4. **Portfolio** : You may display your projects or any relevant images in this section.
5. **Contact** : The form is interactive and upon filling it should send message to your inbox.

Email us at : [info@cyberwebpage.com](mailto:info@cyberwebpage.com) should you need further assistance with your web presence solutions.

## ■ FOOTER SECTION

A footer most often conveys technical information. This includes the copyright information for the website, the name of the website's author, the business name and address with social networking links.

A typical Home Page or Landing Page layout with all 3 basic elements, live page example can be seen at : <https://www.cyberwebpage.com/thank-you>

Websites are the way of the future. They are your business gateway to the global marketplace on the World Wide Web.

More and more people are getting on-line, using the internet looking for products and services they require. It is, therefore, beneficial for any business to have an on-line presence to stay ahead of competitors.

There are many reasons why a website may benefit a business and some of the most important ones are **GLOBAL REACH**.

Global reach is probably the most important advantage of having an on-line presence. A website allows anybody from anywhere in the world, to find out about your company with just a click of a mouse.

A website is the best and most cost-effective way to attract a wider range of people to your business and it is available 24 hours a day throughout the year. It provides an easy, convenient and fast way for people to do business with you.

Don't let your business be left behind, give it the competitive edge that it deserves. Contact us today and **Make your PRESENCE known to the WORLD**.
